Cookies

A cookie is a small piece of information that a website stores directly on the computer a member is using. Cookies can contain a variety of information, from a simple count of how often a member visits a website to information which allows customization of a website for member use. New Generations Federal Credit Union uses cookies to gather data about the usage of our website and to ensure that members have access to their account information. Anytime a cookie is used, personal information is encrypted for our use only and is protected from third party access (a cookie cannot be read by a website other than the one that sets the cookie).

Third Party Links

New Generations Federal Credit Union provides links to business partner websites and to other resource websites as a courtesy. A notification message appears as members click on our credit union partner links to advise that they are leaving the New Generations FCU website and entering an external website outside of our domain.
